

INSTANT LANDSCAPING TURF GRASS WARRANTY

We do guarantee the turf product is fresh and ready to plant at time of delivery !

Please Note: Sod or Turf grass is a live perishable plant. Customers can encounter quick stress and possible failure with lack of care.

OUR WARRANTY DOES NOT COVER

- 1. Sod that is not laid immediately after pick up or delivery.**
- 2. Topsoil that is not irrigated earth to a minimum of one inch deep.**
- 3. Sod that is installed on *high manure soils or pure composts*.**
- 4. Sod blades that are allowed lay down (matt down) after install.**
- 5. Irrigation not sufficient enough to hydrate root system.**
- 6. Your best guarantee for long term health is to use McPheeters fertilizer for at least the first year.**

Watering – Water deep each irrigation ! At least one full inch each session ! Often, short watering times each day, does NOT allow the water to go deep enough to reach the grass roots !

Watering Pallets – DO NOT attempt to cool sod by watering the outsides of the turf pallets. This actually causes the turf to heat up inside !

**McPheeters Turf is the finest quality sod in Central Oregon.
Turf does not die in a day.**

We can always help you if you call !
